

ELECTRASPEC LTD

Electrical control system specialists

Custom Control Panels for Every Industry

System Integrators delivering innovative, reliable, and energy-efficient control solutions that power your operations.

Over **25 years of experience**, our solutions meet the highest standards of performance, safety, and reliability.

Together with the dedicated team at Electraspec we design and manufacture control panels that drive industry

Our Expertise:

- **Custom Panel Design:** Tailored to your processes and specifications
- **Automation Solutions:** PLC, SCADA, HMI integrations
- **Safety & Compliance:** Adhering to IEC, UL, and local standards
- **Energy Efficiency:** Optimized layouts for minimal power loss

Why Choose Us - Expert engineering team

Operations Director Eric

Co-founding Electraspec in 2001, he leverages decades of panel design and manufacturing expertise and leads operations in Worcester.

Production Manager Graham

Since joining in 2004, his meticulous approach guarantees every panel meets the highest quality standards.

Technical Manager Ben

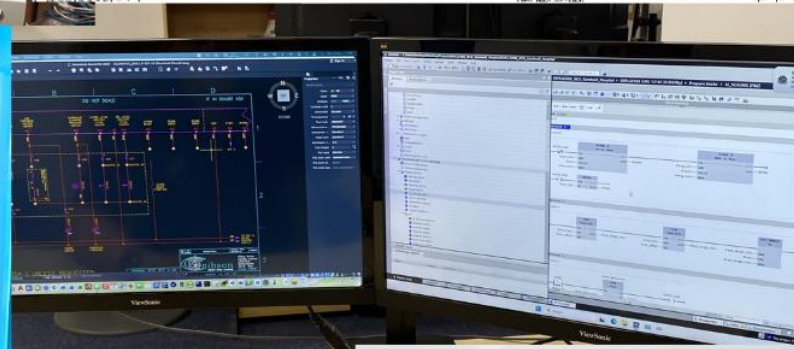

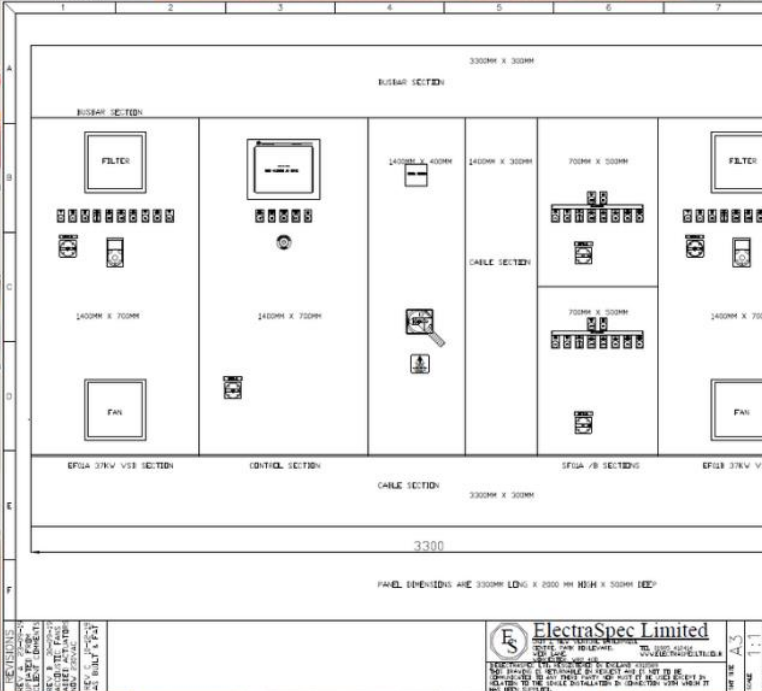

Keeps us at the forefront of technology while managing programming and commissioning of control systems

Key Features:

- Modular design for easy upgrades
- High-quality components for long life
- Advanced monitoring & diagnostics
- Compact & space-saving layouts

Industries Served:

- Manufacturing & Processing
- Power & Utilities
- Oil & Gas
- Food & Beverage
- Water Treatment
- Defence

Our Control Panel Range:

Industrial Control Panels – Efficient and scalable for manufacturing lines.

Distribution Panels – Safe, reliable power distribution for complex setups.

Automation Panels – PLC, HMI, SCADA-ready for seamless process control.

Custom Solutions – Fully tailored designs for unique operational needs.

Electraspec & Gibson Integrated – Shaping the Future Together

In 2024, Electraspec was acquired by Gibson Integrated Ltd, while retaining all our expert staff. We moved into our new premises in early 2025 and we have continued to invest in people, equipment, and our production facilities.

Stuart Gibson, Managing Director

"At Gibson Integrated Ltd, we were among the earliest customers of Electraspec. We knew the quality of their products and the support they provide. Electraspec has helped us push the technological boundaries of our equipment, making them an invaluable partner. I was thrilled when the opportunity arose for them to become part of the Gibson Integrated future."

Powered by innovation, driven by Electraspec
